

## 3 Ways to Control

Off-line voice, wi-fi and remote control

### Key Features

- 3 Ways to Control
- I-Feel
- Energy Saving
- Soft Air Flow
- Backlit LED
- Auto Cleaning

AUX's Mini-Split air conditioning systems provide eco-friendly comfort with a stylish, intelligent design for all your spaces.

## 3 Ways to Control

Easily control with off-line voice control, from anywhere with our app or with the remote. C22 and C25 Only

## Energy Saving

Energy Star certified to save you money. With a DC Inverter that adjusts frequency according to the temperature difference to save energy.

## Backlit LED

Easily see the temperature and any error codes with the sleek white LED display. Easily turn off the display when you want a sleek finish.

## I-Feel

The remote control is equipped with a temperature sensor that can obtain the temperature around the user and adjust it

## Soft Air Flow

Airflow through over 3000 microvents produces gentle airflow while preventing drafts for ultimate comfort. Perfect to use while sleeping

## Auto Cleaning

Clean indoor and outdoor unit with new, 6 step thorough automatic washing to keep the units running like new

## Comfort Guaranteed
